

Ph.D. in Mathematics and Computer Science

Academic year 2023/2024

RESEARCH AND CAREER PLANNING FOR DOCTORAL STUDENTS

**How to do research, write papers and project proposal,
and how to prepare for a career as PhD**

(for Computer Scientists and Mathematicians)

Georg GOTTLOB - University of Calabria

This course should provide the students with a broader understanding of important issues related to academic research and, moreover, discusses how to choose and prepare for a job in academia or industry after the PhD. Different types of career paths are discussed, including academic careers, work in the industry, and in startups. The publishing process is reviewed, and advice is given on how to write convincing and captivating introductions of research papers and projects proposals. In addition to lectures by Professor Gottlob, the student will form small groups and prepare presentations on special topics of relevance that will be followed by discussions.

The goal of this course is to give PhD student a broader perspective on important issues of academic research and on possible career paths after having obtained a PhD.

27/02 & 28/02

12:00 - 13:00

14:30 - 16:00

AULA TURING (MT 10)
CUBO 30 B - 2ND FLOOR

NEXT LECTURES: 29/04 & 30/04
